RISE WATERCRAFT
CRAFTED FOR RADICAL MOTOSURF PERFORMANCE

INTRODUCTION:

MX-PRO

THE ULTIMATE WAVE-SHREDDING MACHINE

The **MX-PRO** is the ultimate wave-shredding machine, delivering the raw thrill of a motocross bike—on water. Inspired by one of the most iconic Japanese wave-riding designs (*Yamaha Wave Blaster 1*), it takes a legendary concept and pushes it into a whole new dimension.

This is ***not a fragile retro toy***.

The MX-PRO is bulletproof—built **100% in epoxy**, insanely strong, and engineered to handle the most brutal conditions and the hardest riding you can throw at it. Waves, landings, abuse—this machine is made to survive it all.

Simply put, the **MX-PRO is an incredible jet with no equal on the market**. It's pure fun, instantly addictive, and designed to put a smile on your face from the first throttle pull. Compatible with a wide range of engines—from **700cc up to 1200cc**—it offers unmatched versatility while keeping a playful, responsive feel.

Less demanding than a stand-up ski, both technically and physically, the MX-PRO delivers something even more important: limitless enjoyment. ***Easy to ride, hard to stop riding.***

Surf it. Send it.

MX-PRO — Built to take hits. Built to have fun.

KEY FEATURES

- **Enhanced Front Volume:**
Better water penetration and reduced impact on landings.
- **Aggressive Rocker:**
For radical surf maneuvers with maximum control.
- **Double Spray Deflectors:**
Significantly reduces splash in action for a cleaner, smoother ride.
- **Redesigned Rails:**
Minimized surface for smoother, softer landings.
- **Short Seat:**
Easier waterstarts and faster take-offs.
- **CNC-Cut Seat foam:**
Maximum shock absorption for knees and shins.
- **Deep-Sink Foot Wells:**
7 cm sunk for 8 cm total heel cushioning.
- **Ergonomic EVA Deck:**
Surf-inspired grip for unmatched traction.
- **ARC Support & Extra Kicker:**
Enhanced control and stability.

KEY FEATURES

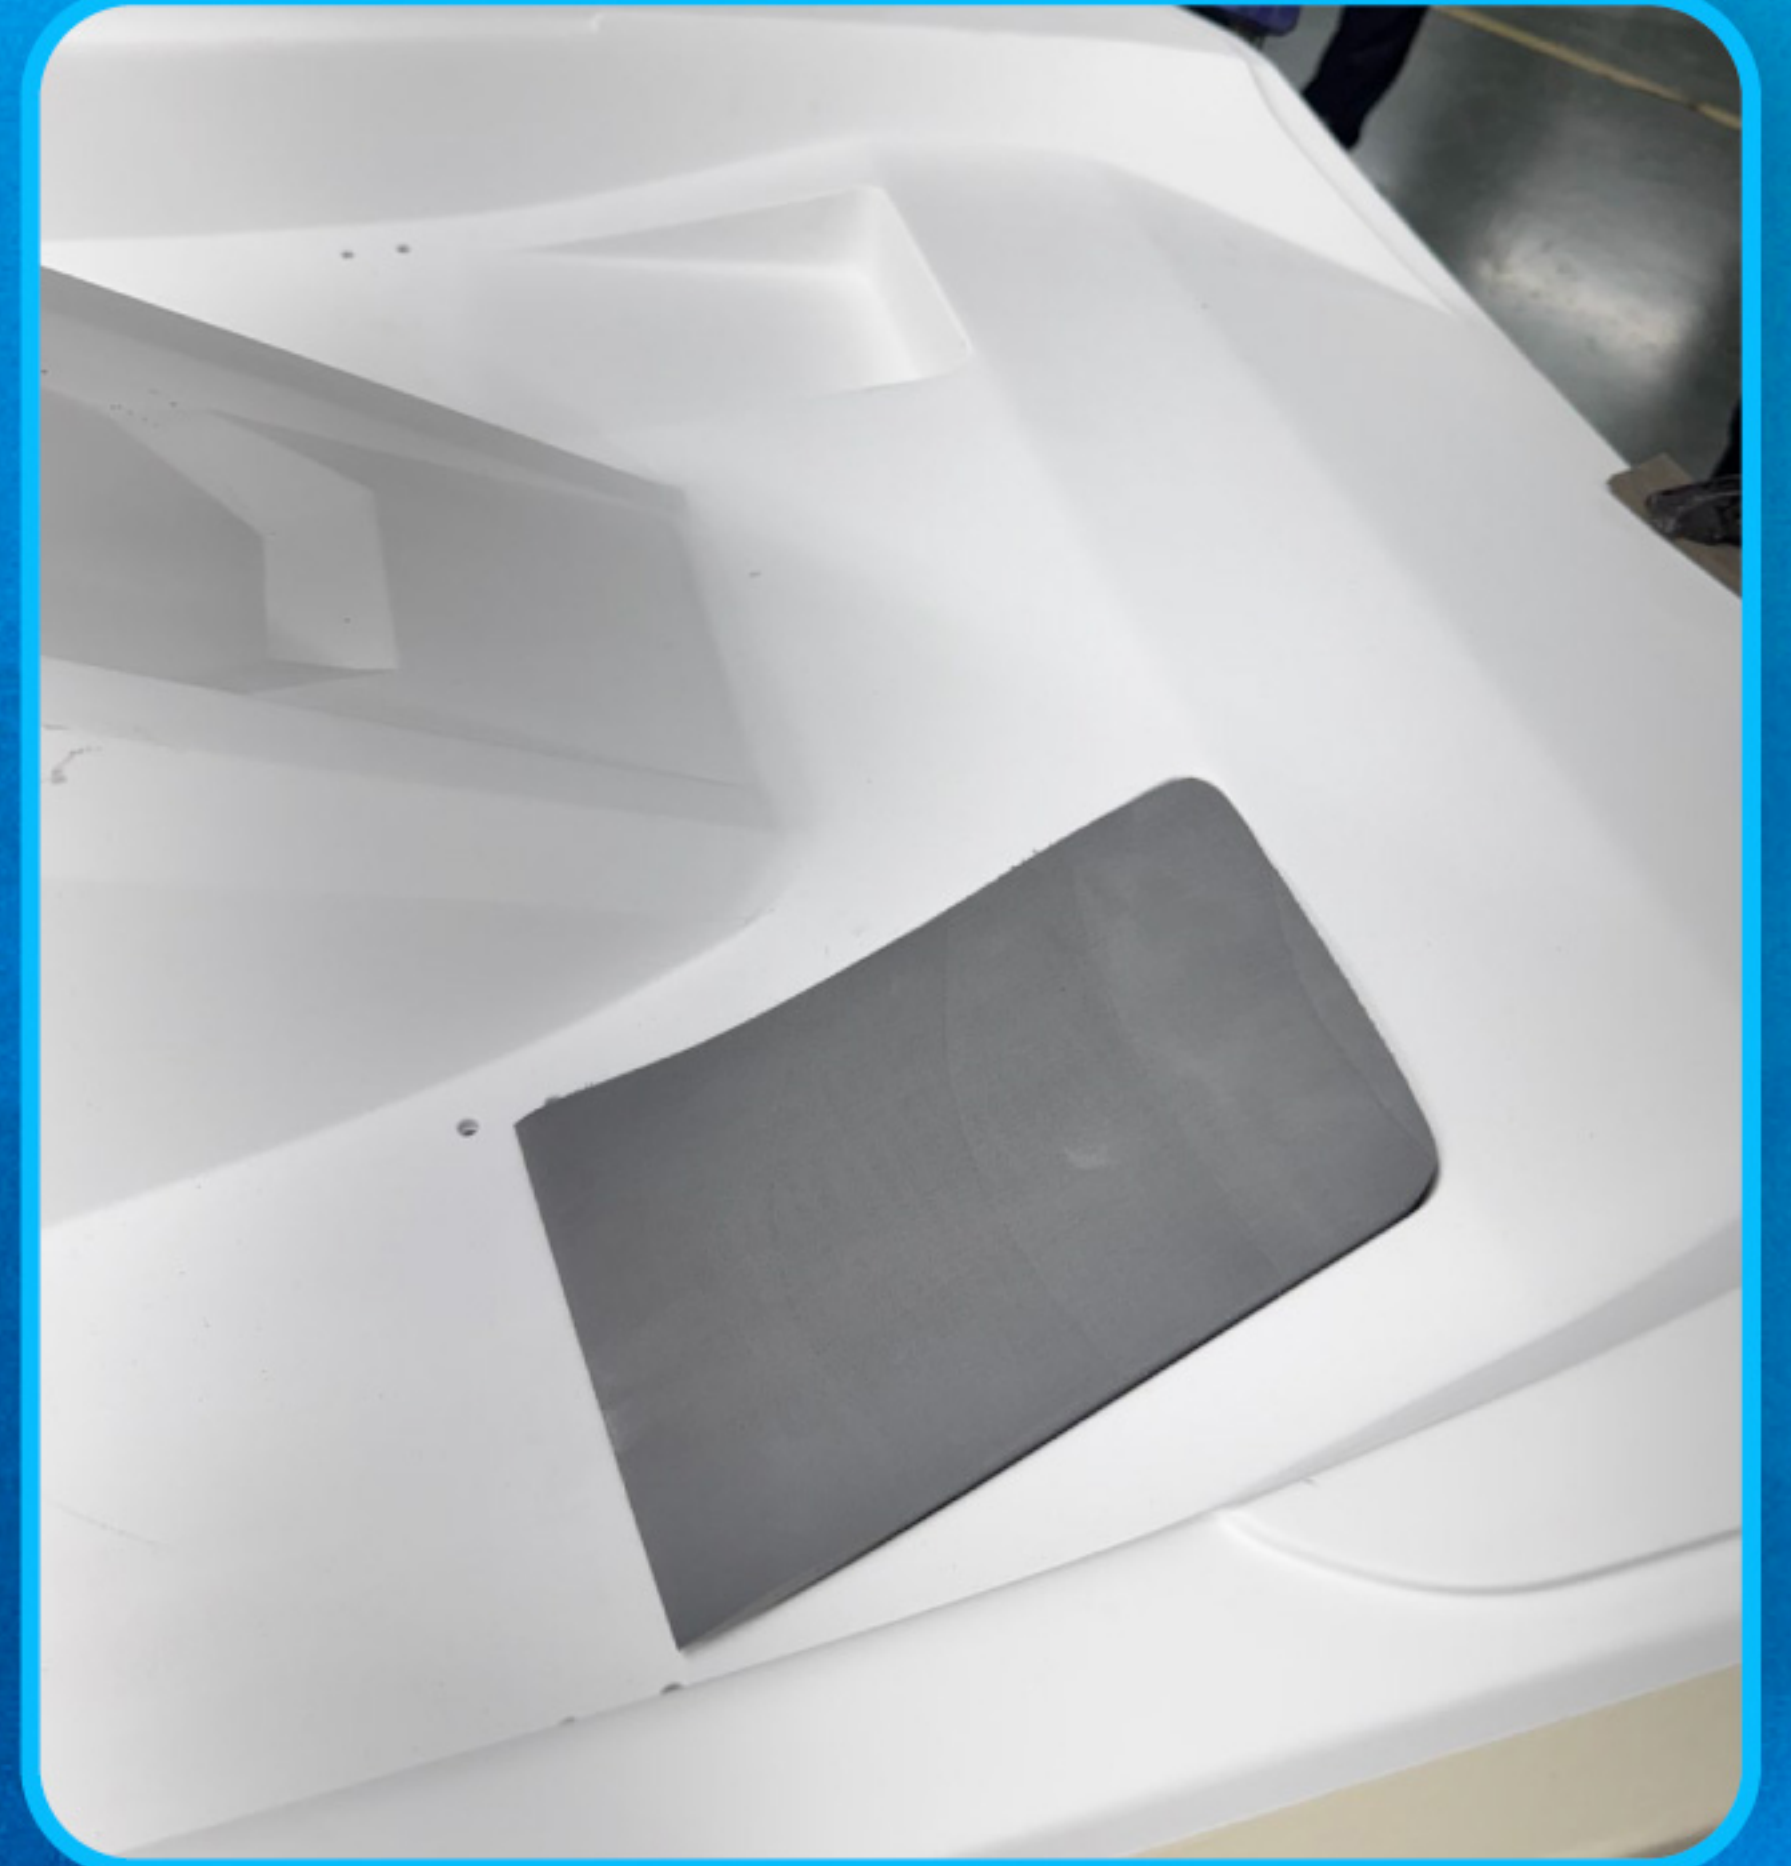

IS DELIVERED WITH:

- Adjustable extended footstraps
- Ride Plate Included
- CNC steering system on bearings
- Hood hinge

- Engine plates
- Scupper valve
- Hood seal
- Complete traction EVA diamond cutted

Double Spray Deflectors

Integrated Heel Cushion

Custom Extended Footstraps and traction EVA diamond cutted with arch support
